“A great array of experiences for all levels of expertise and interest!”

“Meeting CACFP professionals from around the country and finding out about the latest research and strategies is priceless.”

-Previous Attendees

Dear

On behalf of _____, I would like to attend the Child Care Food Program (CCFP) Roundtable Conference in Anaheim, California on October 15-17, 2018.

For 27 years this conference has offered exceptional training, education, as well as networking opportunities to the child nutrition community.

The conference is a three-day professional education event which includes the California Department of Education (CDE), Nutrition Services Division Annual Mandatory CACFP Training as a pre-conference session. Conference sessions provide over 30 workshop sessions featuring topics related to child nutrition; nutrition education; program operations; administration; and financial management of the Child and Adult Care Food Program (CACFP). In addition, the conference workshops include using technology, train the trainer sessions, and management solutions.

This conference also provides the opportunity for networking with local, regional, and national peers and increasing my knowledge of resource access. In total, participation in this conference will provide me with additional knowledge and resources to help our organization continue to be successful in operating the CACFP.

You can read more about the CDE pre-conference CACFP Annual Mandatory Training Session, workshops, speakers, and how my participation in this Conference will provide a positive impact on our program at www.ccfprtconference.weebly.com.

Attached is a cost estimate for your review.

You can be confident that the knowledge I gain at this conference will encourage greater quality and productivity for me, and I look forward to the opportunity to share information with colleagues upon my return.

Thank you for considering this request.

Sincerely,

COST ESTIMATE
