3101 Park Center Drive Alexandria VA 22302

SUBJECT: Documenting Meals in the Child and Adult Care Food Program

TO: Regional Directors

Special Nutrition Programs

All Regions

State Directors

Child Nutrition Programs

All States

The purpose of this memorandum is to provide guidance on how meals served in the Child and Adult Care Food Program (CACFP) must be documented to demonstrate compliance with the meal pattern requirements under 7 CFR 226.20.

On April 25, 2016, the U.S. Department of Agriculture's Food and Nutrition Service (FNS) published the final rule "Child and Adult Care Food Program: Meal Pattern Revisions Related to the Healthy, Hunger-Free Kids Act of 2010" (81 FR 24348) to update the CACFP meal pattern requirements in 7 CFR 226.20. While the final rule did not change the recordkeeping requirements in the CACFP, FNS has received numerous questions regarding the monitoring and documentation of the updated meal pattern requirements. In response, FNS is providing the following clarification on how meals must be monitored and documented.

CACFP centers and day care homes are required to demonstrate that they are serving meals that meet the meal pattern requirements. Centers and day care homes must keep records of menus (7 CFR 226.15(e)(10)). However, State agencies have the authority to determine other types of acceptable recordkeeping documents required to demonstrate compliance with the meal patterns (7 CFR 226.15(e)). For example, a State agency may require centers to keep meal production records in addition to their menus.

To the extent practicable, State agencies should not impose additional paperwork requirements to demonstrate compliance with the updated meal pattern requirements. Rather, FNS encourages State agencies to maintain current recordkeeping requirements or update existing forms to avoid any additional burden.

FNS will revise the following policy guidance to further clarify meal documentation requirements and offer best practices for demonstrating compliance with the meal pattern requirements:
