

Eating Through Meal Patterns

Child and Adult Care Food Program

Breakfast Cereals

Effective October 1, 2017, all breakfast cereals claimed on the Child and Adult Care Food Program (CACFP) must contain no more than 6 grams of sugar per dry ounce of cereal (21.2 grams of sugar per 100 grams of cereal) including ready-to-eat, instant, and hot cereals.

Is it creditable?

Are you trying to figure out whether a cereal is creditable? Follow these steps. It's as easy as 1, 2, 3!

- 1 Check out the list of cereals on this handout.** This quick guide is a great place to start when looking for creditable cereals. Many other cereals are creditable too!
- 2 Look for cereals approved for the WIC program.** Any WIC-approved cereal in any state meets the CACFP sugar requirements. Many grocery stores post WIC shelf labels.
- 3 Look at the Nutrition Facts label.** Do a quick calculation by dividing the number of **grams of sugar per serving** by the number **grams of cereal per serving**. If the result is 0.212 or less, the cereal is creditable. Alternatively, check out the handy chart below.
